Farm Bureau Insurance Continues Their ‘Commitment to Community’ through the Sports Image OPERATION AED Program

May 2025 – A little over a year after joining forces to make Michigan schools safer, Farm Bureau Insurance of Michigan and Sports Image® are proud to announce the continued success of their partnership through the OPERATION AED Program. This ongoing initiative has not only stood the test of time—it has grown stronger, expanding its reach to even more school districts across the state.

The program, which donates fully automatic Automated External Defibrillators (AEDs) to school districts throughout the state of Michigan, remains a vital step toward enhancing community safety. The initiative gained additional urgency following the widely publicized cardiac incident of Buffalo Bills player Damar Hamlin in early 2023, highlighting the need for immediate access to life-saving equipment.

Over the past year, Farm Bureau Insurance has remained committed to supporting the health and safety of Michigan’s students, faculty, and staff. With the support of Sports Image®, the Operation AED Program has steadily increased its impact, now delivering AEDs to well over 100 Michigan school districts.

“These devices save lives, and our mission hasn’t wavered,” said Ms. Lisa Fedewa, Advertising Engagement Specialist at Farm Bureau Insurance of Michigan. “We are proud to see this partnership thrive and grow. By continuing to provide AEDs to schools across Michigan, we’re investing in the safety of our communities and making sure help is always nearby in the event of an emergency.”

The AEDs provided through the program are fully automatic and designed with user-friendly technology, allowing even those with limited training to respond quickly and effectively in a cardiac emergency. Each device represents a critical tool in protecting lives until professional medical personnel arrive.

Thanks to the dedication of Farm Bureau Insurance Agents statewide, more Michigan schools are receiving the tools they need to be better prepared. And with momentum building, the program is set to continue expanding in the year ahead—making a lasting difference, one school at a time.

“Lisa and fellow Farm Bureau agents continue to express enthusiasm in the Operation AED partnership as we look to increase the viability and visibility of this innovative program in Michigan ... and nationwide,” said Eric Horstman, President of Sports Image®.

Currently, AEDs have been secured for the following Michigan School Districts courtesy of Farm Bureau Insurance Agents:

Anchor Bay High - Liz Jekielek	Zeeland High – Andy Spears
